

Pennsylvania awards 27 Dispensary Permits

Articles June 29, 2017

Pennsylvania's Department of Health released the names of the 27 dispensaries awarded permits this afternoon.

The full list of permit holders can be found [here](#). Each permit holder was able to apply for a permit that would grant them up to 3 locations. In total, there could be up to 81 dispensaries selling medical marijuana in Pennsylvania in 2018. The dispensaries will be purchasing the medicine from the 12 grower/processors that were awarded permits last week.

Permit holders have 6 months to build their facilities and implement their plans of operations in order to become operational.
