

Jeremy Farrell to Conduct Webinar Through the Bayer Center for Nonprofit Management at Robert Morris University

News, Speaking February 25, 2022

On Thursday, March 3rd, Jeremy Farrell will present, “**Recognizing and Avoiding Common HR Mistakes That Could Put Your Organization In Court**” This hour-long session will teach attendees how to spot common HR mistakes that often put employers in the crosshairs of an employee lawsuit or a federal or state agency investigation. It will review real life cases and explore lessons-to-be-learned from how they went awry and also offer practical suggestions on common HR practices that too often get overlooked and put employers in legal hot water (i.e., job descriptions, performance reviews, employee handbooks).
